Re: Request for Records

Dear Freedom of Information Act Officer:

Pursuant to the Freedom of Information Act, 5 U.S.C. § 552, as amended, and the FOIA regulations promulgated by the U.S. Environmental Protection Agency in 40 C.F.R. Part 2, I hereby request a copy of the following records:

All materials and analyses that support and were used to generate the atrazine aquatic plant community level of concern ("CE-LOC") range of 1.6 to 26 µg/L and median of 8.5 µg/L, and the CE-LOC figures and percentiles presented in the October 22, 2019 Regulatory Update, see <https://www.regulations.gov/document/EPA-HQ-OPP-2013-0266-1260>, at pages 3-4, 7 and Table 1. Specifically, the records requested include:

- The cosm scoring, study exclusions, and endpoints used to generate the CE-LOC uncertainty range, median, and percentile figures, including information regarding how the dataset handled the splitting of endpoints and how it scored and assessed studies conducted after the 2012 SAP.
- The PATI model that was used to generate the CE-LOC uncertainty range, median, and percentile figures.
- The details of the uncertainty analysis that was conducted, including the parameters, inputs, and process.
- Any other information and analyses that support and were used to generate the CE-LOC uncertainty range, median, and percentile figures.

Please email the response to me at gecolino@bdlaw.com or if that is not practical for you, please contact me at (415) 262-4031 when the response is ready so I can make alternate arrangements. I authorize costs up to \$200 associated with copy and review time to prepare this request. Please let me know if the costs will exceed this amount.

Sincerely,

Gina M. Ecolino
Paralegal
